

CLAUDE MOORE FARM

Put on your coveralls and hitch up the horses! We're going to work on the farm. This hands-on children's area will teach about how simple machines make farm work easier.

Through hands-on activities like lifting bales of hay, carrying tools in a wheel barrow, and using a wheel jack to lift a wagon, we will cover all six simple machines and the following Science SOLs: 1.2, 3.2, 4.2
History SOLs: 1.1, 1.7, 1.9, 2.2

FARM ANIMALS

Meet a variety of livestock, sheep, goats, chickens, peacocks, and pigs. Springtime visits will often coincide with recent births. Learn what types of animals a typical Loudoun County farmer raised, what functions the animals served, and basic livestock care.

A visit to the animal barns addresses the following SOLs: K.2, K.4, K.6, 1.5, 1.7, 2.4
